# TOPCLASS
LMS by WBT Systems

Whether your meeting is fully virtual or a hybrid event, learners connect, engage, and continue learning with TopClass LMS

Create inclusive virtual learning experiences for your conference

TopClass LMS delivers your virtual conference within your LMS system, creating opportunities for all learners to connect and engage, enhancing critical social learning aspects of virtual meetings for both members and non-member attendees.

Remove barriers to learner participation in virtual conferences by eliminating time wasted navigating new platforms and multiple logins.

### Virtual conference management has never been easier

Conference management is simplified for your meetings and education teams. Setup, branding, and session creation all happen within the familiar TopClass LMS platform, allowing teams to focus on delivering relevant, motivating professional development sessions for your learners.

TopClass LMS provides an end-to-end integration with industry-leading video conferencing platforms to enable you to simplify session creation and learner participation in virtual or hybrid events.

Learning and conversations continue after your virtual events

With your virtual conference incorporated into your LMS platform, learners will be able to access virtual events alongside all their learning activities and certification programs.

TopClass LMS provides interactive video for session recordings, discussion forums, and integrated online communities to enable learners to continue networking, conversations, and learning after your virtual event.

Develop unified learning experiences across your in-person and online meetings and education offerings

## Virtual Conference Features

Welcome/Login Page

- Customize the public-facing welcome page with your virtual conference logo and graphic banner image

- Display virtual conference agenda, policies, terms and conditions on the welcome page, for event marketing

- External or non-member learners have direct access to your virtual conference through the welcome page, which supports registration and single-sign-on.

- Members can access your virtual conference from the catalog or their learning center within TopClass LMS.

Virtual Conference Home

- Customize the agenda page with virtual conference logo and graphic banner image

- Can support single-day or multi-day events and single track or multi-track events

- Display sessions in a timeline view with launch link and ability for attendees to add to 'My Agenda'

- Session descriptions include speaker profile and bio

- Each session links to either Zoom or GoToWebinar, with single-sign-on for registered attendees. (Links to other webinar platforms are also supported, but without SSO)

Sponsors, Partners, Exhibitors

- Sponsor & partner carousels on welcome and agenda pages with logos. Supports 5 levels of sponsorship

- Exhibitor profile area with logo, description, ability to share video, image, documents, and 'contact me' button

Engage a wider audience for your professional development programs and bring all your learners together with virtual conferences and events delivered through your Learning Management System.
